### ■ Use

- Supply and exhaust ventilation systems installed in various premises.
- Mounting in kitchens, bathrooms and other humid premises.
- Compatible with Ø100 up to 315 mm round air ducts.

### ■ Design

- Impact- and corrosion-resistant ABS plastic casing.
- Aerodynamically shaped casing.
- Centro 150 is compatible with 150 and 160 mm air ducts.

### ■ Motor

- Single-phase external rotor motor with a centrifugal impeller with backward curved blades.
- Equipped with ball bearings for longer service life.
- Integrated thermal protection with automatic restart.
- Dynamically balanced turbine.
- Some standard sizes have high-powered motors (**Centro max**).
- For ventilation of premises with high requirements to noise level low-noise modifications are available (**Centro L**)

### ■ Speed control

- Smooth speed control with a built-in electronic speed controller (option **FR**).
- Smooth speed control with an external thyristor controller or step speed control with an external auto transformer (both available upon separate order).

### ■ Mounting

- Due to compact design the fan is the ideal solution for mounting in limited spaces.
- Any mounting position.
- Wall or ceiling mounting with fixing brackets supplied as a standard or with a wire frame **Halter Centro** (available upon separate order).
- Flexible air ducts are fixed on fan branch pipes with clamps.

### ■ Modifications and options

- FR** – integrated smooth speed controller, power cord with a socket or a plug (**FR1**).

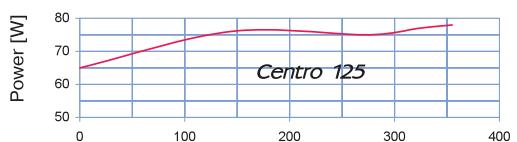

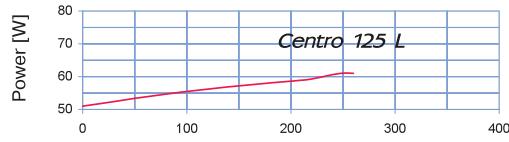

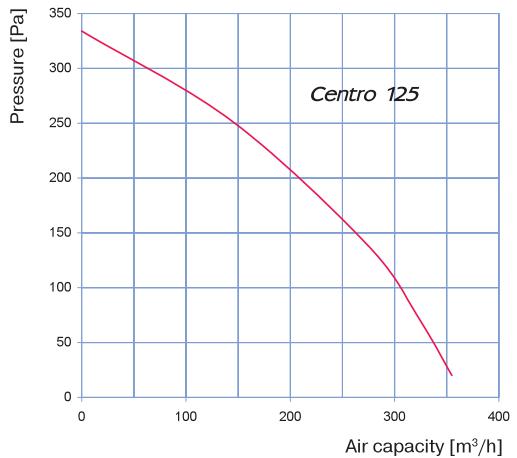

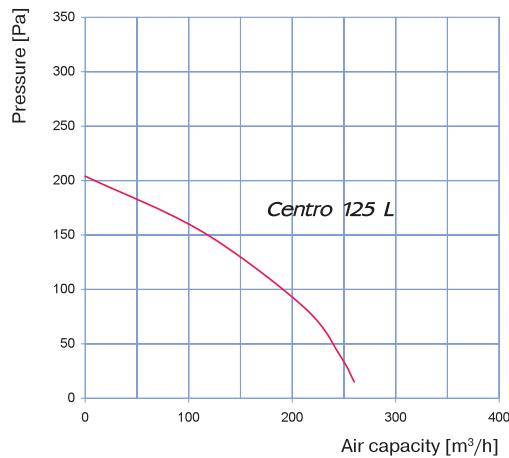

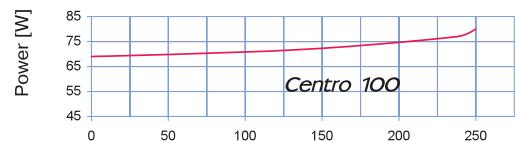

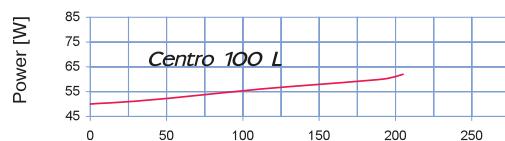

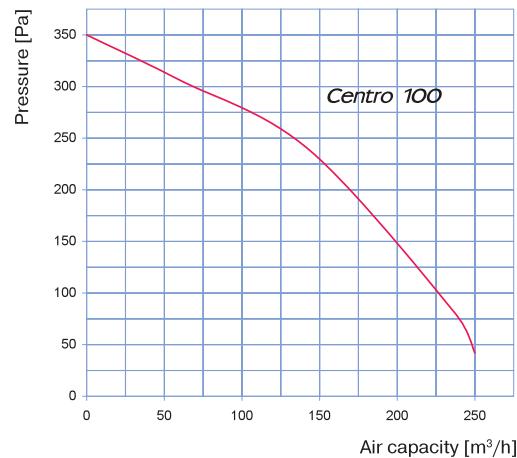

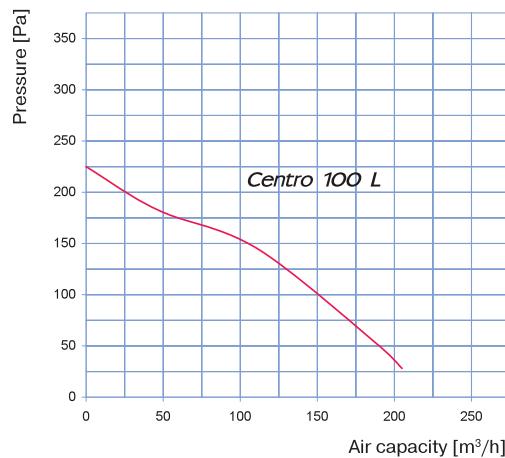

- max** – high-powered motor.
- L** – low-noise fan modification.
- G** – temperature and speed controller with external temperature sensor (with 4 m cable). The fan is equipped with a power cord with a socket or a plug (**G1**).

- GI** – temperature and speed controller with a sensor built into the fan casing. The fan is equipped with a power cord with a socket or plug (**GI1**). G and GI options are used for automatic speed control depending on indoor temperature. The best ventilation solution for premises requiring permanent temperature control as greenhouses, orangeries, etc.
- W** – the fans are equipped with a power cord and a socket or plug (**W1**).
